

We have prepared on-line service to edit language configuration file.  
If you want to work on this service, please follow the instruction below.

### 1. Access this URL

<http://cadencii.sourceforge.jp/cgi-bin/webpoedit.cgi>

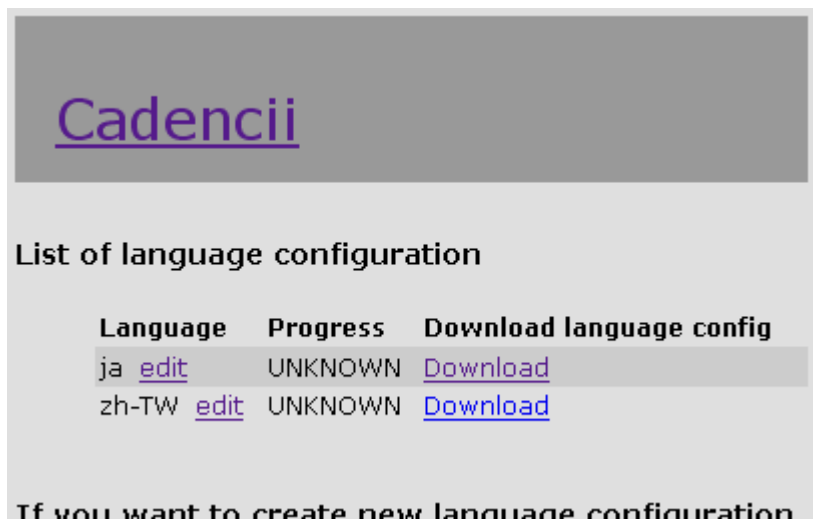

### 2. Enter you nickname and click "Start" button.

This nickname is planned to be listed on the staff-roll as a contributor of Cadencii project. If you don't to tell your name, just enter "anonymous".

The screenshot shows the Cadencii logo at the top. Below it is a text input field with the placeholder text "enter your nick name" and a "start" button to its right.

### 3. Search language you want to edit, and click "edit" button.

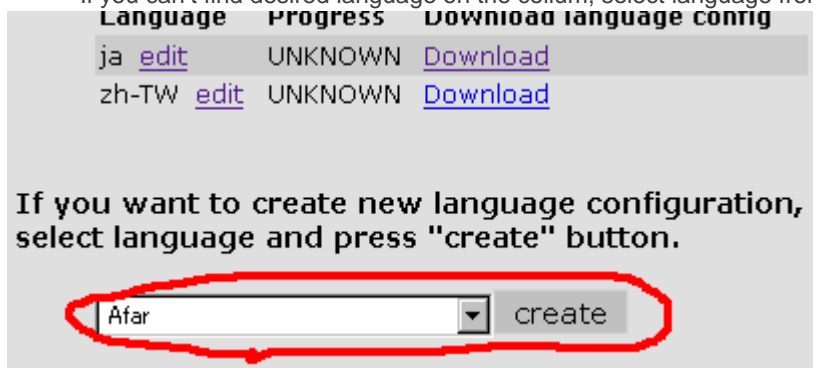

The screenshot shows the Cadencii logo at the top. Below it is the heading "List of language configuration". Underneath is a table with three columns: "Language", "Progress", and "Download language config".

Language	Progress	Download language config
ja <a href="#">edit</a>	UNKNOWN	<a href="#">Download</a>
zh-TW <a href="#">edit</a>	UNKNOWN	<a href="#">Download</a>

Below the table is the text: "If you want to create new language configuration".

If you can't find desired language on the collum, select language from the list on the buttom and click "Create".

The screenshot shows the same table as above. Below it is the text: "If you want to create new language configuration, select language and press "create" button." Below this text is a dropdown menu with "Afar" selected and a "create" button to its right. The dropdown menu and button are circled in red.

### 4. Do translation

Left colum represents original English messages, and right collum represents the messages to be translated.  
Orange colored cells means the messages which are not translated yet.
