

Release Note

Release Date

1 Jan., 2010

Notes

Cadencii requires ".NET Framework Runtime(version 2.0 or later)". Installer of this runtime is available from the link below.

- .NET Framework Runtime:[Download .NET Framework 3.5 SP1](#)

Cadencii can be launched with the latest version of mono. This enable you to use Cadencii with many platforms supported by mono. (Note: Several functions using VOCALOID2 VSTi are not available in this case.) Mono is available from the link:

- [mono download](#)

Download

[Cadencii version 3.0.8](#) (1170KB)

How to get source codes

Source code is available on SourceForege.JP. Please follow the instruction below for checking out the SourceForge.JP's SVN repository.

```
svn checkout -r 759 http://svn.sourceforge.jp/svnroot/cadencii/branches/3.0 ./
```

These svn command is for checiking out "THIS" version of Cadencii. In order to get the latest source codes, please remove "-r" option.
